UnitedHealth Group Volunteers Time and Heart at Opportunity Partners' Residences

GOLDEN VALLEY, MINNESOTA – A group of 16 volunteers from UnitedHealth Group's corporate office in Minnetonka recently spent the day giving their time and heart to Opportunity Partners, a local disability services nonprofit. The volunteer group visited two of Opportunity Partners' group homes, which are home to adults with disabilities, in Golden Valley and Crystal. Residents of the group homes, who are individuals served by Opportunity Partners' programs and services, visited and decorated pumpkins with the volunteers. The UnitedHealth Group volunteers raked over 55 bags of leaves, helping prepare the group homes for colder weather. Opportunity Partners' volunteer program newly launched in October and provides meaningful connections between adults with disabilities and community members across the Twin Cities metro.

ABOUT:

Established in 1953, Opportunity Partners is a Twin Cities nonprofit organization advancing the quality of life for people with disabilities through employment, enrichment and residential programs that serve 1,500 people each year. For more information, visit www.opportunities.org. Learn more about Opportunity Partners' volunteer program [here](#).

PERSON-CENTERED LANGUAGE:

Opportunity Partners is committed to using person-centered language. Please see the provided guide on how to use person-centered language. For further assistance, please contact Opportunity Partners using the information listed below.
