
Opportunity Partners Update
May 1, 2020

As we conclude another week in dealing with this pandemic that has affected everyone in some way, we hope you are staying well. At this time, our five disability day programs remain closed impacting about 750 people we serve in Minnetonka, Plymouth and Coon Rapids. We miss everyone very much, and we know how eager everyone is to return to their normal routines.

We are following all guidelines and recommendations from our state health officials concerning when it will be safe to resume our day program operations. **Therefore, we do not have a date set for re-opening at this time. When we do get the green light, we will plan for a phased re-opening.** Watch for more information in the coming weeks.

Please take a few minutes to watch a video message below from President & CEO Armando Camacho with our latest information and a few words of inspiration.

We will continue to share updates as we go through this together. Please reach out to info@opportunities.org or call 952-938-5511 if you have questions or need additional information. Thank you for your support!
