SOCIAL ENTERPRISES®

A division of Opportunity Partners

About OP Social Enterprises®

OP Social Enterprises® is a division of Opportunity Partners, which is a Minnesota based non-profit. Since 1953 we have been supporting adults with disabilities achieve their aspirations of working and living more independently.

Tori

Tori is a great example of the people you support by buying our Fire Starters. Despite being born with a rare cognitive disability, Tori has found success at Opportunity Partners. She learned job skills at our center-based work program and as part of a supported community team before advancing to an independent position at a local senior center. Thank you for supporting Tori and many other people with disabilities. With your help, we are opening minds and changing lives together!

Fire Starters
